

### Box Steam Brewery Pony Truck 3.8% abv

A pony truck on a steam locomotive is an axle with two unpowered wheels designed to help negotiate curves on the line.

This *Pony Truck* has nothing to do with axles, wheels or negotiating curves – but it sounds good and suits this super hoppy pale ale.

Brewed with Wai-iti and First Gold hops, *Pony Truck* is refreshing and juicy, with a truckload of ripe peach flavours.

### Teme Valley Brewery That 4.1% abv

Because of the brewery's origins in farming, **Teme Valley Brewery** only use UK grown malt and hops from Worcestershire and Herefordshire in their beers. With the exception of a Porter and an occasional wheat beer, all of their beers are "Burton" bitters – the style widely recognised as "real ale".

*That* is a chestnut coloured best bitter with a robust malt flavour balanced by powerful hops. They use crystal malt, chocolate malt and Challenger and Sovereign hops. One for real ale connoisseurs!

### Teme Valley Brewery The Hop Nouvelle 4.1% abv

Another fine beer from **Teme Valley Brewery** and a real exclusive!

*The Hop Nouvelle* is brewed using green un-kilned hops from local farms. Green hops are harvested and then pitched to the beer within an hour of picking to give more aroma and flavour. Try it as an aperitif and savour the unique flavour. This truly is a delight!

### Great Western Brewery Bengal Bay 5.0% abv

Founded in 2007, the **Great Western Brewing Co** is based in Hambrook in Bristol.

*Bengal Bay* is a traditional English-Style IPA, made with English malt & hops. It is gold in colour, with a lemony citrus aroma, tropical fruit notes and a dry, bitter-sweet finish. Perfect with spicy food!

Our tasting team described this as one of their favourites ... let us know what you think ...

### Lakehouse Brewery Citrus Pale Ale 4.0% abv

In 2016 **Lakehouse Brewery** had a vision to bring new and exciting flavours to the world of real ale. Based in Malvern, their beer collection showcases innovative recipes and celebrates unfiltered real ale, using natural ingredients of local and international produce.

*Citrus Pale Ale* is a refreshing pale ale with punchy citrus notes. A truly radiant slightly hoppy beer, dry hopped using cascade hops from USA. You really have to try this one!

### Fierce and Noble Black IPA 6.0% abv

**Fierce & Noble** is a brewery in the St Werburghs area of Bristol, just off the M32. Founded in 2017, they describe themselves as committed to brewing modern, seasonal beer.

*Black IPA* is dark, rich and creamy. Initial notes of coffee and chocolate give way to flavours of blackberry and citrus. *Black IPA* will never fit into preconceptions of ale. Those that see through that get rewarded with a full-bodied and dynamic ale that satisfies the stout drinkers as much as the hop heads.
